

# I EXTREMELY WANT TO WORK

## Portfolio

The most important part of designer's CV is portfolio and projects. So here are some of them.

Here you can find my biggest projects: apps presentations, some animations, sketches and drawings.

[Behance](#)

Impossible to live without a portfolio on dribbble. There are icons, pictures and GIFs for different apps and web projects.

[Dribbble](#)

Here you'll find small projects. For example HTML letters, banner ads, simple presentations.

[Behance](#)

Page with pictures for app and web projects of Bamboo Group.

[Dribbble](#)

## WEB

### [bambooapps.eu](#)

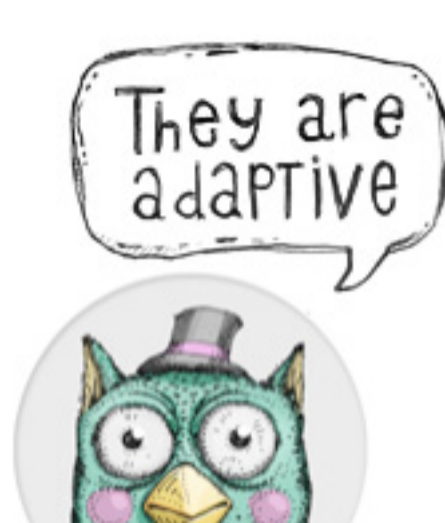

Huge website for mobile apps developer with a huge amount of graphic.

[Visit](#)

You?

## About languages:

- Russian - говорю о чём угодно
- Belarussian - размаляю, разумею і шаную
- English - well I'm good enough at English
- French - Français est très belle langue, je l'aime beaucoup
- Chinese - so difficult and interesting, so I proud to have a proven A2 level of it.

Also I speak a little bit of Greek, Italian, Lithuanian.

## Specialisation:

I am IU/UX designer with 3+ years of working experience. Now I am art director at UO Bamboo Group.

I am familiar with Adobe software (Photoshop, Illustrator, After Effects).

I use Invision for prototyping.

Especially I like doing smth with my hands. For example illustrations, sketches, painting and origami. I can even make a tapestry!

I don't like making photos and retouching.

I know how to code HTML and CSS but I don't like to do this.

Thanks for a moment of attention
